**Technology Requests**

Objective 1.1: Recommend HP LaserJet 9050N (Q3722A) or equivalent. Estimated cost is \$3250.

Objective 1.11: Recommend HP LaserJet 3005N (Q7814A) or equivalent. Estimated cost is \$680.

Objective 1.5: Until a location has been identified it is not possible to estimate the total cost of installation and maintenance. If the only application to be supported is online admission and registration it is recommended that refurbished PC's and a network printer be considered. There would be no cost for the PC's and the cost of the network printer would vary from \$700 to \$3250 depending upon the volume of printing.

Objective 1.8: The cost of the desktop computer would not exceed \$1500. The cost of the scanner will need to be researched and consultation with MIS is recommended.

**Discussion**

The desktop computers for the staff will be upgraded this year and then in 2008-9.
