

Unduplicated Credit Students

Fall and Entire Academic Year

Although the unduplicated headcount of students enrolled in Fall has remained nearly constant, the unduplicated headcount of students for the entire academic year has dropped steadily since 2008 - 2009. Thus, the total annual student headcount has decreased from being half again as large as the Fall headcount to being only 26% greater.

Fall 2011 Credit Students by Gender

As is typical of college populations, women comprise a majority of the students at PCC, with 51.6 % being women and 48.0% men.

Credit Students by Gender

More women than men enroll at PCC. However, for three years the mix moved in the direction of being more even, before stabilizing in Fall 2011. Note that this has happened even though the gender mix of new students has been essentially unchanged.

Fall 2011 Credit Students by Ethnicity

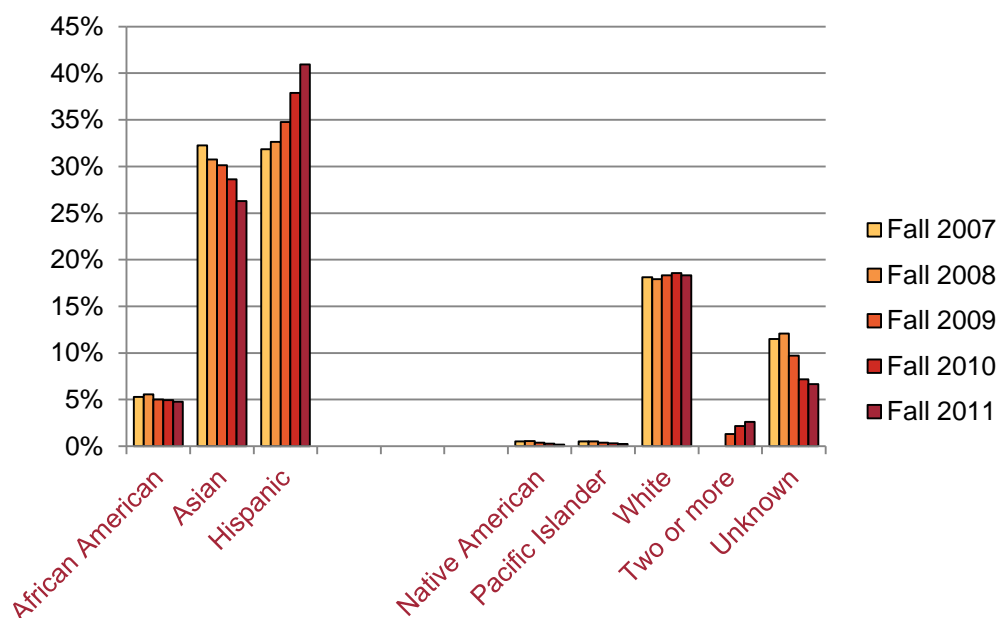

The largest ethnic group at PCC is Hispanic, representing 40.9% of the student population. Following this are Asian/Pacific Islander and White at 26.5% and 18.3%. African American, Native American, Two or more races, and unknown together comprise 14.2%.

Credit Students by Ethnicity

Over the past five years there has been a significant shift in the demographic mix at PCC. At the start of the period both Asians and Hispanics each comprising about a third of the student population. By Fall 2011 this had changed to just over a quarter of the students being Asian, and over 40% being Hispanic.

Also of note is the growth of the "two or more" category, which was added to the list of ethnic choices.

Credit Students by Educational Goal

At the beginning of the previous five years, there was a 4% shift from students declaring their educational goal as transferring without an AA or AS, to transferring with one of those degrees. However, the combined total between the two categories has remained nearly constant at about 70%.

Over the full five year the goal of improving basic skills has steadily increased, while there have been decreases in the number of students choosing the goals of acquire job skills, certificate without transfer, discover career interest, and maintain certificate or license.

Fall 2011 Credit Students by Educational Goal

About 70% of PCC students state a goal of transferring to a four year school. Doing so with an Associates degree is twice as popular as transferring without a degree. Pre-collegiate academic goals, either High School level or basic skills, are the goal of 10.8% of students. Goals related directly to job skills or qualifications are chosen by 7.4%.
