Upon selection students are required to complete a health clearance including drug screen and background check in order to attend clinical experiences, which are required for program completion. A social security number is currently required by all clinical sites to access patient records. Hospitals and health care providers require a clear background check and a negative drug screen. Students who have questions or concerns about the background check are encouraged to make an appointment with the Nursing Program Director. Submission of an application does not guarantee acceptance. Details regarding these clearances will be provided to selected candidates with the acceptance packet.

In the event there are an equal number of students with equivalent points that exceeds the number of seats available, those students will be placed in a lottery for selection. Individual applications are private and scores will not be discussed as per The Family Educational Rights and Privacy Act (FERPA).
