- We learned new ways of doing our work
- We collaborated with one another to be creative & we changed our practices

PCC: Let's keep going!

PCC Students have great ambitions and determination:

3,568 take 6 units and attempt Math or English in Year 1 or 2

We graduate **44.1%** of our students in a 3-year period

When you look at data by race/ethnicity there are fewer students who complete: **34.1 %**

Let's get involved in professional development to learn equity-minded practices in doing our work

Let's change our practices to meet the needs of our existing students

Let's learn about our students' lived experiences to gain more empathy for the challenges they face in the world and let them motivate us to adopt changes

Let's believe in our students. Love them.
Challenge and support them. Help them succeed.

We're doing a great job. **Let's keep doing it!**
