Dr. Endrijonas reported PCC is in the top 100 colleges as ranked by the Aspen Institute, eligible to win the Aspen Prize. She thanked Dr. Brock Klein and Stefanie Fleming for their hard work on the application.

During the President's holiday party, Dr. Endrijonas challenged everyone to setup payroll deductions to the Lancer Pantry. As a result of the challenge, 33 new people signed up.

The Educational Master Plan is the vision for success goals. The college adopted these state wide goals from the chancellor's office. The goals focus on transfer graduates, to reduce the number of units a student can take, get students into

livable wage jobs, closing the equity gaps and getting the student to the finish line.

The Facilities Master Plan is evaluating what the campus will look like in the next 10 years. The consultant on this project is HGA.

B. COMMUNICATIONS AND PUBLIC RELATIONS REPORT

Ms. McPeak reported on behalf of the committee. She noted semi-monthly digital newsletters will be launching starting in January. This digital newsletter will include photos, news items and features. The newsletter will also be sent through the Foundation's Twitter account and Facebook page.

The most comprehensive stories from the digital newsletter will be printed in the Foundation's quarterly hard-copy newsletter. All stories will be uploaded into a "story bank" or virtual archive that can be accessed by the public through the internet.

C. FINANCIAL REPORT

He reported this year the focus is planned giving and annual giving. Goal for annual giving is \$220K.

Mr. Hawkins thanked every board member for their great work; this is an organization that functions as a whole. He said this board is a very strong board with all types of talent. Every single board member is committed, and has deep connections with the community. He is looking forward to another successful year of challenges and opportunities.

In an effort to help our community stay informed about actions taken during governance meetings, I'm pleased to share a report from the most recent meeting of the Pasadena Area Community College District Board of Trustees.

- Advisors from KNN Public Finance, Piper Sanders, and Norton Rose Fulbright gave a presentation on a plan to
 refund outstanding bonds from Measure P, which was passed by voters in 2002. If the district chooses to
 restructure its outstanding debt in this way, it is estimated to save taxpayers between \$4.6 and \$6.9 million,
 depending on market conditions and when the savings are realized. The board will take a vote on the
- A team of architects and planners from HGA gave an update on developments in the Facilities Master Plan. The
 plan assumes enrollment growth of 0.75 percent each year for the next ten years, and plans improvements to
 buildings to meet those needs. Among the projects under consideration include new STEM and general
 instructional buildings, expanded parking lots and structures, and enhanced facilities at the college's satellite
 campuses. The plan will also explore enhanced outdoor amenities, green spaces, and expanded informal study
 areas for students.
- Michael Bush, the college's assistant superintendent/vice president for business and administrative services, gave a presentation on the state budget as proposed by Gov. Gavin Newsom last Friday. The budget estimates \$9.1 billion in funding for community colleges, an increase of 4 percent over current amounts. - Students in PCC's foster youth programs will tour UCLA and see a production of Hamilton in April, thanks to action taken by the board tonight.
- Students registering at the college after January 1 of this year will be subject to a \$2 representation fee, an increase of \$1 over current amounts, due to changes in state law following the passage of AB 1504. The board took action to collect this fee tonight.
- The board voted to pay a mileage reimbursement rate of 57.5 cents per mile in 2020, reducing the rate from 58 cents and keeping the figure in line with that set by the Internal Revenue Service.
- The board authorized the solicitation of bids for three projects: the replacement of HVAC chiller equipment in the LL and R buildings and at the Community Education Center, the remodeling of R-125 to accommodate an expanded Lancer Pantry and a Foster Youth Center, and the renovation of restrooms on the fifth floor of the R building to bring them into compliance with the Americans with Disabilities Act.

FW: Clifford Swan's Thoughts on the Market Pullback

----Original Message----

From: noreply@salesforce.com [mailto:noreply@salesforce.com] On Behalf Of Peter Boyle

Subject: Clifford Swan's Thoughts on the Market Pullback

Dear Bobbi,

No matter how surprising and painful the experience, price corrections are a healthy part of a bull market phase. Bull markets tend to be long-term in nature, usually driven by good economic conditions and growing corporate earnings. Bear markets have short durations, in turn, driven by deteriorating corporate earnings (usually commensurate with Central Banks raising interest rates). Corrections, like the current 10% pullback, can occur multiple times during a bull market phase, as excesses and speculation need to be occasionally tampered down, setting the stage for the next advance. Frankly, the stock market was advancing at an unsustainable pace up until last week while expressing an increasingly speculative tone.

Coming into 2020, we expected a good economic backdrop and healthy corporate earnings growth, with some catch up from the industrial/manufacturing side of the global economy. For the most part, the favorable economic conditions still exist. The scare of a global pandemic may be the cause of the recent price correction, as investors have become concerned about the potential for hampered economic conditions until the spreading virus can be brought under better control. The fact that we are in the midst of an important election year, with the candidates expressing such a stark range of policy differences, has served to heighten anxiety due to the sensational nature of the news cycle.

Interest rates have also reacted to this possibility of deteriorating economic conditions, with record low rates on both 10-year U.S. Treasury and 30-year U.S. Treasury securities. There has clearly been a flight to quality. Bond yields are down, gold prices are up and the U.S. Dollar has been quite strong.

We have experienced global health scares similar to this one in the past: MERS, SARS and Ebola. Each of these proved to be transitory in nature with mild impacts on the global economy. We note that the Coronavirus is being described as somewhat different from these, which creates uncertainty about its persistence and impact. In China, there is no doubt that the virus is disrupting the economy. Recent evidence points to a turn for the better, but this news is not yet building any confidence. Travel and trade are being disrupted as we execute this communique. The authorities have advised preventive measures.

Our investment philosophy is founded upon the idea that owning high quality businesses and credits will provide relatively consistent and attractive returns. We do not attempt to trade for gain, as we believe no one can consistently time market swings. We invest in businesses for long-term appreciation as well as stable and growing dividend streams. Accordingly, stock market corrections are a time to add to stocks and this includes periods like right now. With interest rates so low, this makes the decision process that much easier. Over almost every investment time horizon, except the

shortest, stocks should provide better returns. Bonds from current levels should be utilized primarily to help balance risk and stabilize portfolios.

As the news continues to evolve, we stand ready to answer any questions you may have. Please do not hesitate to reach out to us.

Best regards,

Peter
