VI. ADJOURNMENT

ON MOTION by Masood Kamandy and seconded by John Hanley, the meeting adjourned at 3:57 p.m.

ADDENDUM

KINESIOLOGY, HEALTH AND ATHLETICS

MODIFICATION – DE addition, SPOs, texts – Effective Summer 2020

NUTR 025 NUTRITION FOR SPORT, EXERCISE, AND HEALTH

3 units

Principles of nutrition are studied and applied to the athlete and active individuals. Includes macro and micro nutrient intakes, hydration, pre- and post-event food choices, supplements, body composition, and weight loss/gain. This course also examines the cultural, sociological, and psychological influences related to nutrition, fitness, and athletic achievement. Total of 54 hours lecture.

Transfer Credit: CSU; UC

Grade Mode: L, P

Rationale: Adding a Form D. SPO addition #4. Textbook update.

MATHEMATICS AND COMPUTER TECHNOLOGY

MODIFICATION – SPOs, CCOs – Effective Summer 2020

MATH 005A SINGLE VARIABLE CALCULUS I

5 units

Prerequisite: MATH 007B or MATH 008 or MATH 009, or placement based on the Math assessment process.

Limits, differentiation, and integration of functions of a single variable including the Mean Value Theorem and the Fundamental Theorem of Calculus. No credit if taken after MATH 005AH. Total of 90 hours lecture.

Transfer Credit: CSU; UC credit limitations. See counselor. C-ID: MATH 211; MATH SEQ 900S (WITH MATH 005B)

Grade Mode: L, P

Rationale: Due to the conditional approval of Math 005AH and that course needing some rewording of the SPOs and CCOs, Math 005A is also being resubmitted with the same changes to keep the regular course and the honors course parallel in all aspects except for the honors component. We also believe that one correction they asked for was incorrect, and that is the inclusion of the differentiation of inverse functions, as that is a topic for Math 005B or 005BH. It appears to be a copy and paste error and has been sent to C-ID for review.

MODIFICATION – SPOs, CCO – Effective Summer 2020

MATH 005AH HONORS SINGLE VARIABLE CALCULUS I

5 units

Prerequisite: MATH 007B or MATH 008 or MATH 009, or placement based on the Math assessment process.

Limits, differentiation, and integration of functions of a single variable including the Mean Value Theorem and the Fundamental Theorem of Calculus. As an honors course, students will be expected to

complete additional assignments involving more extensive proofs and problem solving to gain deeper insight into single variable calculus theory and applications. No credit if taken after MATH 005A.

Total of 90 hours lecture.

Transfer Credit: CSU; UC

Grade Mode: L, P

Rationale: This course is being resubmitted after receiving a conditional approval from the C-ID Math Reviewers. They said that the submitted COR aligned with most areas, but they felt that certain content was missing from the submitted course outline. The SPOs and the CCOs have been reworded so that there is no questions that the required content is in the course. The mathematical content has not changed, just been clarified so that the Reviewers can see that we are actually teaching the required course content. We also believe that one correction they asked for was incorrect, and that is the inclusion of the differentiation of inverse functions, as that is a topic for Math 005B or 005BH. It appears to be a copy and paste error and has been sent to C-ID for review.

NONCREDIT

DELETION – Effective Summer 2020

PAR 7684 PARENT EDUCATION DISCUSSION GROUPS – COURT MANDATED

Rationale: This course is no longer being offered.

SOCIAL SCIENCES

ADDITION – Effective Summer 2020

Associate in Arts in Global Studies for Transfer

21-25 units

The Associate in Arts in Global Studies for Transfer degree is an interdisciplinary program designed to provide students with a foundation in and understanding of globalization and contemporary global issues. The program is intended to prepare students to transfer into upper division degree programs in Global Studies, Global Politics, International Development Studies, International Relations, International Studies, and Comparative Government. It also provides students a basis for other majors in anthropology, economics, geography, history, humanities, and political science. Earning a degree in Global Studies is a starting point for careers in international business, international development, academics, immigration advocacy, non-profits, international politics, public policy, government, research, and the law. The skillsets that students develop are universally beneficial for virtually any major and career.

The Associate in Arts in Global Studies for Transfer degree requirements:

1. Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
2. The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
3. A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

4. Obtainment of a minimum grade point average of 2.0.
5. All courses in the major must be completed with a grade of “C” or better.
6. A “P” (Pass) grade is not acceptable grade for courses in the major. (Students completing this degree are not required to fulfill additional local graduation requirements.)

Associate in Arts in Psychology for Transfer

21-25 units

Psychology is the scientific study of human and animal behavior and mental processes, including cognition, emotion, sensation, perception, and interaction. In pursuing the Associate in Arts in Psychology for Transfer Degree, students acquire skills in research, information gathering, and analytic thinking. Students majoring in psychology develop their critical thinking, problem solving, and written and verbal communication skills. As psychology majors, students have learning opportunities that are relevant to many types of careers, including business, education, government, nonprofit organizations, and within health and human services, etc.

The Associate in Arts in Psychology for Transfer degree requirements:

1. Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
