E. SPECIAL GUESTS AND COMMITTEE REPORTS

1. Stephanie Fleming and Myriam Altounji presented a Guided Pathways update.

Power Point summary of the Pathways summer activities and goals for this academic year.

Presentation Point Topics: Access, Career, Support and Structure

Goals for the year: Make processes and procedures more transparent and better for the students as they navigate from exploration to completion. They are doing this through their website and with the creation of Academic Maps and a Working Group, with opportunities for faculty involvement. Further goals include providing data on labor market information and having maps completed for each program. Faculty leadership will be required; a reassigned time position will be floated through HR using the Senate-approved process.

MOTION to extend discussion by 5 minutes made and seconded by J. Kiotas and E. Douglas.

VOTE: Approved unanimously.

Program and career information requests and website suggestions may be forwarded to

M. Altounji and/or S. Fleming.

2. Chief Steven Matchan, PCC Police and Safety.

President Rogacs: The Senate will eventually see a BP / AP on allowing PCC officers to have Tasers. Today's presentation will allow Senators time to share this information with their divisions before the division VP presentations.

Chief Matchan: Under his leadership, PCC's Police and Security presence has worked to become more community-based with its 7 officers and 25 cadets who are more suited, educated, balanced and fair in their responsibilities. They are responsible for the security and patrol of campus areas on a 24/7 work schedule. Often there can be 6000-9000 thousand students on campus, and officers are often by themselves while on day or night duty. PCC's officers are unarmed, police-academy-trained State of California Police Officers. Every single police department in the State of California is armed except for San Francisco Community College. The purpose of his visit is to seek support for a policy to arm PCC police officers with Tasers, which are a less-than-lethal tool, to help ensure the safety of PCC police officers.

In the past, a proposed Taser recommendation was received by the PCC President at that time, but it was not forwarded to the Board. Our current PCC president approached Chief Matchan with a College Council recommendation requesting extra protection for our officers. Chief Matchan said allowing Tasers would be a good "stepping stone" in support our officers in keeping themselves and our campus community safe. In response to a question about possible lethal effects, it was noted contributing factors such as drug and alcohol use place additional stress on the heart and are a consideration. Tasers carry the same level of force as a baton.

Strict guidelines would be followed in creating a campus Taser policy that would mimic other community college policies and would provide our officers an extra less-than-lethal tool in addition to their current use of pepper spray and a baton to keep our officers and campus safe when facing challenging circumstances. In 2012 Chief Matchan wrote a policy on the use of Tasers on campus. The Tasers under consideration automatically begin recording video and audio when they are un-holstered.

MOTION to extend discussion five minutes is R. Foster and E. Douglas.

VOTE: Approved unanimously.

Chief Matchan found a five-year Taser Plan, the cost of which would be approximately \$7500 per year and would include the Tasers, holsters, training, replacement cartridges, and video and data storage.

Within the past 16 years, PCC has had approximately eight use-of-force incidents.

In regards to social injustice question, PCC officers attend diversity training every year. Articles about certain incidents around the country or within our state are shared with the officers to critique what happened.

MOTION to extend discussion two minutes made and seconded by J. Kiotas and T. Stoddard:

VOTE: Approved by majority. No: M. Michelson.

Two goals in the Vision for Success from the Chancellor's office address closing student equity gaps. PCC has been actively involved in work on closing equity gaps. Faculty leadership is needed on this process.
