

Student Centered Funding Formula

California Community Colleges

Changes for California Community Colleges— Student Centered Funding Formula

- The new formula calculates apportionments generally using three allocations:
 - *Base Allocation*—Current factors (primarily credit FTES).
 - *Supplemental Allocation*—Counts of low-income students.
 - *Student Success Allocation*—Counts of outcomes related to the *Vision for Success*, with “premiums” for outcomes of low-income students.
- Noncredit FTES (and some other FTES) would be funded at current rates.
- The rates are calculated to provide a three-year transition.

- For the supplemental allocation, a district would receive one “point” based on the counts of all of the following in the prior year:
 - Pell Grant recipients.
 - California College Promise Grant recipients.
 - AB 540 students.

^{1/} These totals will also be adjusted by the changes in the cost-of-living in those years.

Note: These amounts will be calculated based on the numbers of colleges and comprehensive centers consistent with the current formula.

Changes for California Community Colleges— Student Centered Funding Formula

- In 2018-19, 2019-20, and 2020-21, a district would receive the greater of the formula total or the amount the district received in 2017-18, adjusted by the changes in the cost-of-living.
- The formula includes a “stability” provision that delays any decreases in revenues by one year.
- Further, the bill would require the following of districts:
 - *Goals*—Adoption, by January 1, 2019, of goals that are aligned with the Vision for Success.
 - *Comprehensive Plans*—Alignment of comprehensive plans with those goals and alignment of annual budgets with the comprehensive plans.
 - *Capacity*—If directed by the chancellor (with approval by the Board of Governors), use of funds for technical assistance or professional development.
